Forecast for Saturday 28 Aug 2021

Weather: Some mist and fog patches with some low cloud covering summits, but this should lift quickly during the morning. A dry day will follow with plenty of sunshine and some fair weather cloud. Skies will clear in the evening.

Chance of cloud free mountain/hill tops above 600m: 30% to stat the morning before improving to 100% by mid to late-morning.

Visibility: Poor or very poor in morning mist and fog. Otherwise very good visibility of distant hills throughout the day with most cloud staying above the summits.

Freezing Level*	2200m	2200m	2200m	2600m	2600m	2800m	2600m

**Level above which ground is expected to be frozen/snow is expected to settle.*

Meteorologist's View

Although it is towards the end of summer, UV levels will still be high in the prolonged sunny intervals, particularly as you climb further up. Therefore, it is still important to protect exposed areas of skin and stay hydrated.

Recent rainfall: measured at Neuadd: altitude 353m
